

Calling All Record Breakers!

Impossibility Challenger New Zealand Dec 3, 2011

We would like to extend an invitation for all record breakers from around the world to participate in this years [Impossibility Challenger](#) World Record Games.

This is a celebration of excellence, self transcendence and record breaking. This is the second time the event has been held in N.Z, at the first one there were 18 Guinness and World records set on the one day in the beautiful city of Auckland.

The [Impossibility Challenger](#) has been run successfully in Zurich Switzerland and Munich Germany since 1982. In the spirit of Olympism, the [Impossibility Challenger](#) puts together on a single day, in a single venue, multiple Guinness, world, national and personal record attempts that transcend the impossible.

Auckland, Saturday December 3rd 2011 is the date for the event and with the generous support of the Auckland City Council, the Douglas Track will be used as the venue. Alongside the record attempts are the Self Transcendence Games which will give everyone, an opportunity to participate at unique and novel events in the style of Guinness sport.

The [Impossibility Challenger](#) was founded by the late Sri Chinmoy and joins a wide range of sports initiatives that he inspired to encourage physical fitness, the Olympic spirit of harmony through athletics and sport and his hopes of a peaceful world. And to inspire people to experience the joy which comes through challenging the seemingly impossible.

In 2009 we had considerable media coverage of this community event including print, radio and T.V . This is an event that New Zealanders enjoy. Also please take a look at our popular website www.impossibilitychallenger.com
